

## **ROGER WIESE**

I was born in Chicago, Illinois. My wife (Becky) and I moved to the Brooks Creek community of Windsor in August of 2023 after being residents of Rohnert Park for 42-years. Prior to that we lived in the Los Angeles area. We are the parents of three daughters, and we have five grandchildren.

Career-wise, I was a banker in downtown Los Angeles with Security First National Bank and then moved over to Wells Fargo Bank. I transferred to San Francisco while with Wells Fargo. Moving from banking to the legal profession, I became a law firm administrator with a firm in downtown SF. I then performed the same functions at two attorney firms in Santa Rosa. After leaving full time employment, I recently retired from a part-time administrative/accounting position at Sonoma County Harley-Davidson. I continue to assist with accounting support for Pacific Door Products in Cotati on a limited basis.

From 1961-1964 I served in the United States Army. I went to crypto school at Fort Gordon, GA. After completing this course, I was assigned to Arlington Hall Station (Arlington, VA), and at The Pentagon. After high school, I originally attended Los Angeles City College before graduating from California State University, Los Angeles, with a bachelor's degree in finance. Becky and I enjoy a variety of activities with our family. We are very fortunate that our family members live within close proximity to our home. One oldest daughter and spouse live in Windsor, our second daughter and husband live in St. Helena, while our youngest and her husband reside in Santa Rosa. On a personal basis, I enjoy being a model railroader.

Unfortunately, when we moved from RP, and downsized, I had to tear down a large n-scale layout I had built in our RP home. My next plan is to eventually build an HO-gauge in our garage (n-scale is just too small as I grow older).
